INDEX TO VOLUME 92

POSTGRADUATE MEDICINE

JULY-DECEMBER 1992

SUBJECTS

ACCIDENT PREVENTION
• OSHA'S new regulations on bloodborne pathogens. (ED) 92(1):17
ACNE
• Retinoid therapy, benefits and risks, guidelines for treatment. 92(6):193
• Vulgaris, topical and systemic therapies. 92(5):181*
ACQUIRED IMMUNODEFICIENCY SYNDROME (AIDS)
• HIV infection in athletes, risks in sports setting, guidelines for sports physicians. 92(7):73*
• Rheumatic syndromes in HIV-infected patients. 92(4):99*
• Seropositive but asymptomatic patients, evaluation and management by primary care physician. 92(5):155*
ADOLESCENT MEDICINE: See Pediatrics
AGING
• Age-related skin changes, benefits and risks of retinoid therapy, guidelines for treatment. 92(6):191*
• Common thyroid disorders, accurate diagnosis and rational management. 92(3):225*
• Fever of unknown origin in elderly, steps to diagnosis. 92(5):197*
• Hypertension, treatment recommendations. 92(1):237*
• Postoperative acute confusional state in elderly, role of primary care physician in prevention. 92(3):196
• Risk factor for acute confusional state. 92(8):142
• Risk of bladder cancer in elderly men. 92(1):105
• Risk of tetanus, diagnosis and treatment. 92(7):59*
• Thrombolytic therapy for acute myocardial infarction in elderly. 92(1):210
AIDS: See Acquired immunodeficiency syndrome (AIDS)

AIRWAY OBSTRUCTION
• Anaphylaxis, management, preventive measures. 92(5):277*
• Asthma, diagnostic approach. 92(3):80*
• Asthma, new approach to management. 92(6):177*
• In aspiration pneumonia. 92(1):168
ALCOHOLISM
• Cause of sideroblastic anemia, hematologic evaluation. (CR) 92(7):147
ALLERGY
• Anaphylactic reaction, management of medical emergency, preventive measures. 92(5):277*
• Role in asthma. 92(3):83*
ANAPHYLAXIS
• Management and prevention of medical emergency. 92(5):277*
ANEMIA
• Of chronic disease, clues to differentiate from iron deficiency. 92(4):123*
• Sideroblastic, alcohol-induced, hematologic evaluation. (CR) 92(7):147
ANTIBIOTICS: See Drugs, antibiotic
ARTHRITIS: See Rheumatic diseases
ASTHMA
• Avoiding triggers. (PN) 92(4):175
• Diagnostic approach. 92(3):80*
• Metered-dose inhalers. (PN) 92(3):274
• Metered-dose inhalers and spacer devices. 92(3):95*
• Occupational, mechanisms and causes, diagnosis, and treatment. 92(3):109*
• Reevaluation of management strategies, new approach in 1990s. 92(6):177*
• Wheezing and dyspnea resulting from vocal cord dysfunction, not asthma. (CR) 92(6):153

BEHAVIOR DISORDERS
• Accompanying Tourette's syndrome. 92(5):306
• Acute confusional state, clinical presentation, evaluation, and management. 92(8):141*
BIOPSY
• Renal, in evaluation of adults with primary nephrotic syndrome. 92(2):213
BITES AND STINGS
• Animal bites, current management guidelines. 92(1):134*
• *Anopheles* mosquito, malaria, prophylaxis for world travelers. 92(3):161*
BLOOD
• Autologous transfusion, answers to commonly asked questions. 92(3):253*
BREAST DISEASES
• Cancer, legal issues in management. 92(5):137*
• Common breast lesions, evaluation and management. 92(5):95*
• Mammographic imaging of breast, overview of capabilities and limitations. 92(5):117*
• Mammography. (PN) 92(5):353

CANCER: See Neoplasms
CARDIOVASCULAR DISEASES
• Antiatherosclerotic effects of calcium channel blockers for hypertension. 92(2):265*
• Atrial fibrillation, anticoagulant therapy, recommendations from recent studies. 92(3):119*
• Beneficial cardiac effects of hormone replacement therapy. 92(4):146
• Cardiac complications following surgery, role of primary care physician in prevention. 92(3):189*
• Cardiac complications of substance abuse. 92(3):205
• Cardiac enzyme levels in confirming acute myocardial infarction. 92(7):85*
• Cardiac imaging after acute myocardial infarction to identify patients at continued risk. 92(8):93*
• Cardiac irregularities from magnesium deficiency. 92(5):218
• Cardiac rehabilitation, level 1. (PN) 92(7):179
• Cardiac rehabilitation, level 2. (PN) 92(8):261
• Cardiovascular risk factors, psychophysiologic responses to stress and clinical consequences. 92(5):237*
• Cerebral infarctions, diagnostic studies and therapeutic regimens that help avoid stroke in middle-aged and older patients. 92(2):221
• Coronary artery disease, perioperative factors affecting outcome. 92(5):265*
• Coronary artery disease risk factors in persons with type II diabetes, relationship to glucose metabolism. 92(2):105*
• Hypertension in elderly, treatment recommendations. 92(1):237*
• Hypertension in post-myocardial infarction patient, pharmacotherapy for long-term outcome. 92(3):173*
• Hypertension, interrelationships to exercise and antihypertensive drug therapy. 92(6):139*
• Implantable cardioverter-defibrillators for prevention of sudden cardiac death, current recommendations. 92(1):301*
• Ischemic heart disease, preoperative risk assessment. 92(5):251*
• Myocardial infarction, acute, assessing damage and predicting prognosis with nuclear myocardial perfusion imaging. 92(7):109*
• Myocardial infarction, acute, updated protocol for thrombolytic therapy. 92(1):209*
• Myocardial infarction, assessing long-term prognosis. 92(8):107*
• Myocardial infarction, using echocardiography in evaluation. 92(7):97*
• Myocardial infarction, various therapies to prevent reinfarction. 92(8):84*
• Post–myocardial infarction patient with hypertension, complementary use of beta blockers and calcium channel blockers for secondary prevention. 92(3):173*
• Postoperative myocardial infarction, management. 92(5):271
• Proarrhythmic complications from quinidine. 92(4):133
• Rehabilitation following heart attack. (PN) 92(7):179; (PN) 92(8):261
• Rheumatic fever, resurgence in United States, diagnosis and treatment. 92(3):133*
• Risk in obese patients. 92(1):155
• Sudden cardiac death during exercise, identifying those at risk. 92(2):195*

continued

*Major clinical discussion
CR, Case Report
ED, Editorial
MEM, Memories Worth Sharing
PH, Physician-at-Large
PN, Patient Notes

• Vascular complications of substance abuse. 92(3):207

CATHETERIZATION
• Indwelling urinary catheters, management recommendations. 92(1):127*

CHOLESTEROL
• Effect of insulin on low-density and high-density lipoproteins. 92(2):106

COLD
• Hypothermia, diagnosis, treatment, and prognosis. 92(8):47*

COLONIC DISEASES: See Gastrointestinal diseases

CONNECTIVE TISSUE DISEASE
• Cause of fever in elderly. 92(5):198

CONTRAST MEDIA
• Radiocontrast-induced nephropathy, risk factors and preventive measures. 92(8):215*

DEATH/DYING
• Sudden, during exercise, history and causes, identifying those at risk. 92(2):195*

DELIVERY OF HEALTHCARE
• Comparison of 11 healthcare plans. (ED) 92(2):21
• Comparisons of Bush and Clinton healthcare plans. (ED) 92(5):15
• Letter to President-elect Clinton. (ED) 92(8):21
• National health insurance, Ralph Nader's viewpoint. (ED) 92(6):15
• President Bush's healthcare plan for the nation—and an overview of his health status. (ED) 92(4):13

DEPRESSION
• In physically ill patients, diagnosis, use of antidepressants, tips on safe treatment. 92(3):147*

DIABETES
• Exercise—benefits, risks, precautions. 92(1):183*
• Foot care. (PN) 92(2):289
• Health risk of obesity. 92(1):154
• Magnesium deficiency, causes and effects. 92(5):217*
• Non-insulin-dependent (type II), combining insulin and sulfonylurea. 92(2):89*
• Non-insulin-dependent (type II), rational use of sulfonylureas. 92(2):69*
• Type II, lipid metabolism and relationship to glucose metabolism. 92(2):105*
• Type II (non-insulin-dependent), physician's role in nonpharmacologic treatment and patient education. 92(6):129*

DIAGNOSTIC TECHNIQUES
• Barium enema, role in detecting colorectal disease, radiologist's perspective. 92(3):245*
• Cardiac enzyme levels in confirming acute myocardial infarction. 92(7):85*
• Cardiac imaging after acute myocardial infarction to identify patients at continued risk. 92(8):93*
• Cost-effective screening for ovarian cancer. 92(8):63*
• Echocardiography, capabilities in evaluation of myocardial infarction. 92(7):97*
• Objective testing for asthma. 92(3):112
• Preoperative, patients with ischemic heart disease. 92(5):257
• Serologic diagnosis of viral hepatitis. 92(4):55*

DIARRHEA
• "Halloween," side effect of sorbitol-containing candy. (CR) 92(5):63
• In Crohn's disease, therapeutic options. 92(8):168

DIET: See Nutrition

DRUG ABUSE
• Medical complications, overview. 92(3):205*

DRUG INTERACTIONS
• Systemic, with oral contraceptives. 92(7):162
• With sulfonylureas. 92(2):74

DRUG THERAPY
• Drug trials on treatment of Crohn's disease. 92(8):168*
• For asthma, new approach for 1990s. 92(6):177*
• Thrombolytic therapy for acute myocardial infarction, updated protocol. 92(1):209*
• Zidovudine therapy for asymptomatic HIV-infected patients, when to start. 92(5):161

DRUGS, ANGIOTENSIN-CONVERTING ENZYME INHIBITOR
• To prevent reinfarction after myocardial infarction. 92(8):87

DRUGS, ANTIARRHYTHMIC
• Quinidine, safety and effectiveness. 92(4):131*

DRUGS, ANTIBIOTIC
• Agents and course of treatment for women with acute urinary tract infection. 92(6):159*
• For Crohn's disease, results of drug trials. 92(8):173
• For infected animal bites. 92(1):136
• Macrolide, newer agents—azithromycin and clarithromycin. 92(1):269*
• Prophylaxis in cases of animal bites. 92(1):136
• Sulfasalazine in management of Crohn's disease, results of drug trials. 92(8):168

DRUGS, ANTICOAGULANT
• For atrial fibrillation, recommendations based on results of recent studies. 92(3):119*
• To prevent reinfarction after myocardial infarction. 92(8):88

DRUGS, ANTIDEPRESSANT
• Use in physically ill patient treated for depression. 92(3):149

DRUGS, ANTIHISTAMINES
• Oral, first- and second-generation, for pruritus. 92(7):43

DRUGS, ANTIHYPERTENSIVE
• Maximizing benefits of exercise in patients receiving antihypertensive drug therapy. 92(6):139*

DRUGS, ANTIMALARIAL
• Traits, benefits, and side effects. 92(3):165

DRUGS, ANTIMICROBIAL
• In management of community-acquired pneumonia. 92(8):207

DRUGS, ANTIPSYCHOTIC
• For delirium and acute psychosis. 92(5):320, 326, 328

DRUGS, ANTIVIRAL
• Interferon, for treatment of chronic hepatitis B and C. 92(4):75*

DRUGS, BETA AGONIST
• Metered-dose inhalers and spacer devices in management of asthma, teaching correct use, patient problems and solutions. 92(3):95*

DRUGS, BETA BLOCKER
• Following myocardial infarction to prevent reinfarction. 92(8):87*
• For post–myocardial infarction patients with hypertension. 92(3):175

DRUGS, BRONCHODILATOR
• Beta$_2$ agonists for asthma. 92(6):183
• Theophylline preparations for asthma. 92(6):185

DRUGS, CALCIUM CHANNEL BLOCKER
• Antiatherosclerotic effects. 92(2):265*
• Following myocardial infarction to prevent reinfarction. 92(8):87
• For post–myocardial infarction patients with hypertension. 92(3):175

DRUGS, CONTRACEPTIVE
• Oral, benefits and risks. 92(7):155*
• Oral, role in management of endometriosis. 92(1):292

DRUGS, CORTICOSTEROID
• For asthma. 92(6):186
• In treating Crohn's disease, results of drug trials. 92(8):170

DRUGS, DIURETIC
• For managing ascites in patients with cirrhosis. 92(8):155

DRUGS, HORMONE
• Postmenopausal replacement therapy, risks, screening recommendations. 92(4):145*

DRUGS, IMMUNOSUPPRESSIVE
• For Crohn's disease, results of drug trials. 92(8):170

DRUGS, NONSTEROIDAL ANTI-INFLAMMATORY (NSAID)
• Cromolyn sodium for asthma. 92(6):185

DRUGS, RETINOID
• For acne and age-related skin changes, benefits and risks, guidelines for treatment. 92(6):191

DRUGS, SALICYLATE
• Aspirin therapy for atrial fibrillation, recent study results. 92(3):120

DRUGS, SIDE EFFECTS
• Antidepressant therapy, risk-benefit ratio in treating depressed, physically ill patients. 92(3):153
• From quinidine. 92(4):132
• From retinoid therapy of acne. 92(6):195

DRUGS, SULFONYLUREA
• Combined with insulin to treat type II diabetes. 92(2):89*
• For non-insulin-dependent (type II) diabetes, when and when not to use. 92(2):69*

DRUGS, THROMBOLYTIC
• Protocol for use in acute myocardial infarction. 92(1):209*

DYSPHAGIA
• Pinpointing cause with radiographic, endoscopic, and manometric studies. 92(7):129*

continued on page 233

ECHOCARDIOGRAPHY
• In evaluation of myocardial infarction. 92(7):97*
• Two-dimensional, to identify patients at continued risk after acute myocardial infarction. 92(8):95
ELDERLY: See Aging
ELECTROCARDIOGRAPHY
• In assessing risk factors and long-term prognosis after myocardial infarction. 92(8):107*
ELECTROPHYSIOLOGIC STUDY
• Implantable cardioverter-defibrillators for prevention of sudden cardiac death, current recommendations. 92(1):301*
EMERGENCY MEDICINE
• Anaphylaxis, management, preventive measures. 92(5):277
• Carbon monoxide poisoning, diagnosis and treatment. 92(4):86*
• Hypothermia, recognizing subtle signs and symptoms, treatment and prognosis. 92(8):47*
• Poisoning and overdose, current options for gastrointestinal decontamination and appropriate applications. 92(2):116*
ENDOCRINE DISORDERS
• Addisonian crisis following surgery, role of primary care physician in prevention. 92(3):194
• Cause of pruritus, evaluation and treatment. 92(7):34
• Diabetes: See Diabetes
• Graves' disease, treatment options. 92(8):117*
• Thyroid disorders in elderly, accurate diagnosis and rational management. 92(3):225*
ENVIRONMENTAL HAZARDS
• Lead poisoning in children, ramifications, screening and prevention. 92(5):69*
EQUIPMENT
• Metered-dose inhalers and spacer devices in asthma management, teaching correct use. 92(3):95*
EXERCISE
• For patients with diabetes—benefits, risks, precautions. 92(1):183*
• Interrelationships among exercise, hypertension, and antihypertensive drug therapy. 92(6):139*
• Role in controlling non-insulin-dependent diabetes. 92(6):129
• Role in treating post-polio syndrome. 92(1):253
EYE DISORDERS
• Ophthalmic manifestations of Graves' disease. 92(8):117

FEVER
• Rheumatic, resurgence in United States, diagnosis and treatment. 92(3):133*
• Unknown origin in elderly, steps to diagnosis. 92(5):197*
FOOT DISORDERS
• In diabetics. (PN) 92(2):289
FOREIGN BODIES
• In gastrointestinal tract, guidelines for removal. 92(5):46*

GASTROINTESTINAL DISEASES
• Ascites in patients with cirrhosis, treatment options. 92(8):155*
• Barium enema in detection of colorectal diseases, radiologist's perspective. 92(3):245*
• Colon cancer, dietary effects. (PN) 92(6):221
• Colonic diverticula, overview of therapeutic approaches. 92(6):97*
• Colorectal polyps, differentiating benign from malignant, screening and treatment, follow-up and prevention. 92(6):53*
• Complications of substance abuse. 92(3):211
• Crohn's disease, therapeutic options available, results of drug trials. 92(8):168*
• Dysphagia, pinpointing cause with radiographic, endoscopic, and manometric studies. 92(7):129*
• Foreign bodies in GI tract, guidelines for removal. 92(5):46*
• Gas and diarrhea caused by sorbitol ingestion. (CR) 92(5):63
• Gastrointestinal decontamination after poisoning or overdose, current options. 92(2):116*
• Inflammatory bowel disease, outpatient management. 92(6):69*
GENETIC DISORDERS: See Hereditary diseases
GENITAL DISEASES
• Acute urinary tract infection in women, changing ideas on treatment. 92(6):159*
• Female, endometriosis, diagnostic clues, treatment options. 92(1):283*
• Testicular cancer, screening and education, role of primary care physician. 92(1):93*
• Testicular self-examination. (PN) 92(1):335
GERIATRICS: See Aging
GOVERNMENT AGENCIES
• OSHA'S new regulations on bloodborne pathogens. (ED) 92(1):17
• OSHA's response to information requests. (ED) 92(7):15
GYNECOLOGY: See Obstetrics/Gynecology

HEART DISEASE: See Cardiovascular diseases
HEMATOLOGIC DISEASES
• Immune thrombocytopenic purpura, acute and chronic, clinical features, laboratory findings, and treatment options. 92(6):112
• Iron deficiency and anemia of chronic disease, diagnostic clues for differentiation. 92(4):123*
• Sideroblastic anemia, alcohol-induced, hematologic evaluation. (CR) 92(7):147
HEMORRHOIDS
• Office evaluation and management. 92(2):141
HEPATITIS
• B and C, chronic, current drug treatment. 92(4):75*
• Viral, preexposure and postexposure prophylaxis. 92(4):43*
• Viral, tests for serologic diagnosis. 92(4):55*
HEREDITARY DISEASES
• Tourette's syndrome, recognition and management, promising new drug therapies. 92(5):299*
HORMONES
• Estrogen and progestin, benefits and risks. 92(7):155
• Estrogen replacement therapy, postmenopausal protection. 92(4):145*
HYPERTENSION: See Cardiovascular diseases
HYPOTHERMIA
• Diagnosis, treatment, and prognosis. 92(8):47*

IMMUNIZATION
• Current recommendations on viral hepatitis. 92(4):43
• Tetanus status review in cases of animal bites. 92(1):144
• To prevent tetanus. 92(7):67
IMMUNOLOGIC DISEASES
• Effects of substance abuse. 92(3):212
• Impaired cell-mediated immunity, factor in listerial meningitis. (CR) 92(8):191
• Rheumatic syndromes in HIV-infected patients. 92(4):99*
INFECTION
• Cause of fever in elderly. 92(5):197*
• Cause of pruritus. 92(7):36
• Community-acquired pneumonia, diagnosis and treatment. 92(8):197*
• Complication of long-term urinary catheterization, treatment recommendations. 92(1):129
• Human immunodeficiency virus, evaluation and management of seropositive but asymptomatic patient. 92(5):155*
• Human immunodeficiency virus, in athletes, risks in sports setting, guidelines for sports physicians. 92(7):73*
• Listerial meningitis, sources of infection, coexisting conditions, and therapeutic agents. (CR) 92(8):191
• Malaria, prophylaxis for world travelers. 92(3):161*
• Opportunistic, of bone and joint. 92(4):99
• Perirectal and perianal abscesses, office evaluation and management. 92(2):144
• Respiratory tract in children, what helps and what doesn't? 92(2):235*
• Rheumatic fever, resurgence in United States, diagnosis and treatment. 92(3):133*
• Risk with animal bites, current management guidelines including antibiotic prophylaxis. 92(1):134*
• Tetanus, threat to elderly, diagnosis and treatment, prevention with immunization. 92(7):59*
• Urinary tract, acute, in women, changing ideas on treatment. 92(6):159*
INSOMNIA
• Situational, guidelines for treatment. 92(2):157*
INSULIN
• Used with sulfonylurea to treat type II diabetes. 92(2):89*
INSURANCE, HEALTH
• Comparison of 11 healthcare plans. (ED) 92(2):21

continued

• Ralph Nader's plan for national health insurance. (ED) 92(6):15
• Reform in United States, comparisons of Bush and Clinton healthcare proposals. (ED) 92(5): 15

INTESTINAL DISEASES: See Gastrointestinal diseases

IRON
• Deficiency, differentiating from anemia of chronic disease. 92(4): 123*

KIDNEY DISEASES
• Cause of pruritus. 92(7):34
• Nephropathy, radiocontrast-induced, risk factors and preventive measures. 92(8):215*
• Nephrotic syndrome in adults, diagnosis and management. 92(2):209*
• Renal insufficiency, role in refractory ascites in patients with cirrhosis. 92(8):155

LABORATORY INVESTIGATION
• Cardiac enzyme levels in confirming acute myocardial infarction. 92(7):85*
• In diagnosis of Graves' disease. 92(8):120
• Serologic diagnosis of viral hepatitis. 92(4):55*
• Serum creatinine level in diagnosis of radiocontrast-induced nephropathy. 92(8):222
• Tests for detecting pathogen causing community-acquired pneumonia. 92(8):203
• Thyroid function tests in elderly. 92(3):225

LIVER DISEASES
• Cirrhosis accompanied by ascites, treatment options. 92(8): 155*
• Hepatitis B and C, chronic, current drug treatment. 92(4):75*
• Viral hepatitis, preexposure and postexposure prophylaxis. 92(4):43*
• Viral hepatitis, tests for serologic diagnosis. 92(4):55*

MAGNESIUM
• Deficiency in diabetics, causes and effects. 92(5):217*

MALPRACTICE
• Legal issues surrounding breast cancer care, recommendations for decreasing liability risks. 92(5):137*

MAMMOGRAPHY
• Overview of capabilities and limitations. 92(5):117*
• Patient information. (PN) 92(5): 353

MEDICAL PRACTICE
• How OSHA responds to complaints about physicians' office practice methods. (ED) 92(3):29
• OSHA'S new regulations on bloodborne pathogens. (ED) 92(1):17
• Patient satisfaction, strategies for avoiding formal complaints. 92(5):169

MENINGITIS
• Listerial, sources of infection, coexisting conditions, and therapeutic agents. (CR) 92(8):191

MENSTRUATION DISORDERS
• Amenorrhea and chronic anovulation, finding and addressing underlying cause. 92(2):255*

MUSCULOSKELETAL DISORDERS
• Muscle rigidity and spasm resulting from tetanus, evaluation and treatment. 92(7):59
• Myositis in HIV-infected patients. 92(4):104
• Post-polio syndrome, possible causes, current treatment. 92(1): 249*

NEOPLASMS
• Bladder cancer, identification, staging, and treatment. 92(1): 105*
• Breast cancer, legal issues in management. 92(5):137*
• Breast cancer, mammographic features. 92(5):118
• Breast lesions, evaluation and management. 92(5):95*
• Colorectal polyps, screening and treatment, follow-up and prevention. 92(6):53*
• Lymphoma, cause of fever in elderly. 92(5):200
• Malignant, risk in obese patients. 92(1):156
• Ovarian cancer, cost-effective screening methods. 92(8):63*
• Prostate cancer, update on recognition and management. 92(1):67*
• Testicular cancer, screening and education, role of primary care physicians. 92(1):93

NEUROLOGIC MANIFESTATIONS
• Acute confusional state, clinical presentation, evaluation, and management. 92(8):141*
• Caused by tetanus, particularly in elderly, diagnosis and treatment. 92(7):59*
• Complications of substance abuse. 92(3):207
• In listerial meningitis, sources of infection, coexisting conditions, and therapeutic agents. (CR) 92(8):191
• Post-polio syndrome, possible causes, current treatment. 92(1):249*
• Stroke: See Stroke
• Tourette's syndrome, recognition and management, promising new drug therapies. 92(5):299*

NUTRITION
• Diet and colon cancer. (PN) 92(6):221
• Eating behavior in obesity. 92(1):154
• Hypervitaminosis A. 92(6):199
• Iron deficiency, cause of pruritus. 92(7):36
• Low-fiber diet and diverticular disease. 92(6):97
• Magnesium deficiency and diabetes, causes and effects. 92(5): 217*
• Nutritional concerns in inflammatory bowel disease. 92(6):71
• Sorbitol in sugar-free foods, side effects of gas and diarrhea. (CR) 92(5):63
• Weight loss and nutritional counseling in control of non-insulin-dependent diabetes. 92(6):130

OBESITY
• Medical implications. 92(1): 151*

OBSTETRICS/GYNECOLOGY
• Amenorrhea and chronic anovulation, finding and addressing underlying cause. 92(2):255*
• Endometriosis, diagnostic clues, treatment options. 92(1): 283*
• Oral contraceptives, benefits and risks. 92(7):155*
• Ovarian cancer, cost-effective screening methods. 92(8):63*
• Postmenopausal hormone replacement therapy. 92(4):145*
• Reproductive complications of substance abuse, effect on pregnancy. 92(3):213

OCCUPATIONAL DISEASES
• Asthma, mechanisms and causes, diagnosis, and treatment. 92(3):109*

OTORHINOLARYNGOLOGIC DISEASES
• Snoring, causes, complications, evaluation and management. 92(3):217*
• Vocal cord dysfunction mimicking bronchial asthma. (CR) 92(6):153

OXYGEN
• Therapy for carbon monoxide poisoning. 92(4):93

PATIENT EDUCATION
• Avoiding asthma triggers. (PN) 92(4):175
• Breast self-examination. 92(5): 95
• Cardiac rehabilitation, level 1. (PN) 92(7):179
• Cardiac rehabilitation, level 2. (PN) 92(8):261
• Counseling asymptomatic HIV-positive patients. 92(5):159
• Diet and colon cancer. (PN) 92(6):221
• Foot care for diabetics. (PN) 92(2):289
• Informed consent in management of breast disease, legal issues. 92(5):144
• Mammography. (PN) 92(5):353
• Metered-dose inhalers. (PN) 92(3):274
• Role of physician in teaching and offering support to control non-insulin-dependent diabetes. 92(6):129*
• Teaching correct use of metered-dose inhalers and spacer devices for asthma management. 92(3):95*
• Testicular self-examination. (PN) 92(1):335

PEDIATRICS
• Acne vulgaris, topical and systemic therapies. 92(5):181*
• "Halloween diarrhea," side effect of sorbitol-containing candy. (CR) 92(5):63
• Immune thrombocytopenic purpura, acute and chronic, clinical features, laboratory findings, and treatment options. 92(6):112*
• Lead poisoning in children, ramifications, screening and prevention. 92(5):69*
• Respiratory infections, what helps and what doesn't? 92(2): 235*
• Tetanus immunization. 92(7):67

PHARYNGEAL DISEASES
• Pharyngitis and incidence of rheumatic fever in United States,

diagnosis and treatment. 92(3): 133*
PHYSICAL EXAMINATION
• Focused, in asymptomatic adults. 92(2):171*
PHYSICIAN-PATIENT RELATIONS
• Assessing patient satisfaction, strategies for avoiding formal complaints. 92(5):169
PHYSICIANS
• Sports, risks of HIV transmission from infected athletes. 92(7): 74
PNEUMONIA
• Aspiration, recognition and management, possibility of prevention. 92(1):165*
• Community-acquired, diagnosis and treatment. 92(8):197*
POISONING
• Carbon monoxide, diagnosis and treatment. 92(4):86*
• Current options for gastrointestinal decontamination and appropriate applications. 92(2):116*
• Lead, in children, ramifications, screening and prevention. 92(5): 69*
POLYPS
• Colorectal, differentiating benign and malignant, screening and treatment, follow-up and prevention. 92(6):53*
PREGNANCY: See Obstetrics/Gynecology
PREVENTIVE MEDICINE
• Focused physical examination in asymptomatic adults. 92(2): 171*
• Foot care in diabetics. (PN) 92(2):289
• Measures to prevent malaria for world travelers. 92(3):162
• Physician efforts to prevent lead poisoning in young children. 92(5):71
• Pneumonia prophylaxis in HIV-infected patients. 92(5):162
• Preventing tetanus with immunization, prophylaxis after injury. 92(7):67
• Preventive strategies for viral hepatitis, recommendations for preexposure and postexposure prophylaxis. 92(4):43*
PROSTATIC DISEASES
• Cancer, update on recognition and management. 92(1):67*
PSYCHIATRIC/PSYCHOSOCIAL DISORDERS
• Acute confusional state, clinical presentation, evaluation, and management. 92(8):141*
• Delirium and acute psychosis, diagnosis and management. 92(5):319*
• Depression in physically ill patients, diagnosis, use of antidepressants, tips on safe treatment. 92(3):147*
• Obsessive-compulsive disorder in patients with Tourette's syndrome. 92(5):306
• Situational insomnia, guidelines for treatment. 92(2):157*
• Stress, psychophysiologic responses and clinical consequences. 92(5):237*
PUBLIC HEALTH
• Lead poisoning in children, societal ramifications, screening and prevention. 92(5):69*
• Resurgence of rheumatic fever in United States. 92(3):133*
PULMONARY DISEASES: See Respiratory diseases

RABIES
• Animal bites, current management guidelines including potential for rabies. 92(1):140
RADIOGRAPHY
• Chest, indications for use in evaluating patients for pneumonia. 92(8):202
RADIOLOGIC DIAGNOSIS
• Barium enema in detecting colorectal disease, radiologist's perspective. 92(3):245*
• Cardiac imaging after acute myocardial infarction to identify patients at continued risk. 92(8):93*
• Mammographic imaging of breast, overview of capabilities and limitations. 92(5):117*
• Mammography. (PN) 92(5): 353
• Nuclear myocardial perfusion imaging in acute myocardial infarction. 92(7):109*
RECTAL DISEASES
• Colorectal polyps, screening and treatment, follow-up and prevention. 92(6):53*
• Common anorectal problems, office management. 92(2):141*
• Foreign bodies in rectum, guidelines for removal. 92(5):56
• Role of barium enema in detection, radiologist's perspective. 92(3):245*
REHABILITATION
• Cardiac, level 1. (PN) 92(7):179
• Cardiac, level 2. (PN) 92(8):261
RENAL DISEASES: See Kidney diseases
RESPIRATORY DISEASES
• Aspiration pneumonia, three distinct syndromes, recognition and management, possibility of prevention. 92(1):165*
• Asthma, diagnostic approach. 92(3):80*
• Asthma, management with metered-dose inhalers and spacer devices, teaching proper technique. 92(3):95*
• Asthma, reevaluation of management strategies. 92(6):177*
• Avoiding triggers of asthma. (PN) 92(4):175
• Carbon monoxide poisoning, diagnosis and treatment. 92(4): 86*
• Infections in children, what helps and what doesn't? 92(2): 235*
• Metered-dose inhalers. (PN) 92(3):274
• Occupational asthma, mechanisms and causes, diagnosis and treatment. 92(3):109*
• Pneumonia, community-acquired, diagnosis and treatment. 92(8):197*
• Postoperative complications, role of primary care physician in prevention. 92(3):192
• Pulmonary complications of substance abuse. 92(3):208
• Respiratory symptoms resulting from vocal cord dysfunction. (CR) 92(6):153
RHEUMATIC DISEASES
• In HIV-infected patients. 92(4):99*

SAFETY: See Accident prevention
SCREENING
• Asymptomatic men for prostate cancer. 92(1):71
• Athletes for risk of sudden cardiac death. 92(2):205
• Breast self-examination. 92(5): 95
• For bladder cancer. 92(1):109
• For colorectal cancer. 92(6):58
• For lead exposure in children, CDC standards. 92(5):69
• For ovarian cancer, cost-effective methods. 92(8):63*
• For testicular cancer, role of primary care physician in education. 92(1):94
• Mammographic imaging of breast, overview of capabilities and limitations. 92(5):117*
• Mammography. (PN) 92(5):353
• Testicular self-examination. (PN) 92(1):335
SKIN DISEASES
• Acne and age-related skin changes, benefits and risks of retinoid therapy and guidelines for treatment. 92(6):191*
• Acne vulgaris, topical and systemic therapies. 92(5):181*
• Pruritus, cutaneous and systemic causes, treatment. 92(7): 34*
SLEEP DISORDERS
• Situational insomnia, guidelines for treatment. 92(2):157*
• Snoring, causes, complications, evaluation and management. 92(3):217*
SPORTS MEDICINE
• HIV infection in athletes, risks in sports setting, guidelines for sports physicians. 92(7):73*
STRESS
• Effect on heart, mechanisms, measurement, and management. 92(5):237*
STROKE
• Avoiding, diagnostic studies and therapeutic regimens in middle-aged and older patients. 92(2):221
SUBSTANCE ABUSE: See Drug abuse
SURGERY
• For diverticular complications. 92(6):101
• Liver transplantation for refractory ascites in patients with cirrhosis. 92(8):163
• Management of endometriosis. 92(1):291
• Noncardiac, in patients with ischemic heart disease, preoperative risk assessment. 92(5):237*
• Perioperative factors affecting outcome for patients with coronary artery disease, management of postoperative myocardial infarction. 92(5):265*
• Preventing postoperative medical complications, role of primary care physician. 92(3):189*
• Vascular shunts for refractory ascites. 92(8):163

THERAPEUTICS
• Environmental manipulation in managing patients with delirium and acute psychosis. 92(5):319, 327
• Interferon, for treatment of chronic hepatitis B and C. 92(4): 75*

continued

• Oxygen therapy for carbon monoxide poisoning. 92(4):93
• Paracentesis in management of ascites refractory to treatment with diuretics. 92(8):161

THYROID DISEASES
• Graves' disease, treatment options. 92(8):117*
• In elderly, accurate diagnosis and rational management. 92(3):225*

THYROID FUNCTION TESTS
• In elderly. 92(3):225

TRAUMA
• Animal bites, current management guidelines. 92(1):134*
• Carbon monoxide poisoning, diagnosis and treatment. 92(4):86*

TRAVEL MEDICINE
• Malaria, prophylaxis for world travelers. 92(3):161*

TUMORS: See Neoplasms

URINARY TRACT DISORDERS
• Acute infection in women, changing thoughts on treatment. 92(6):159*

UROLOGIC DISEASES
• Bladder cancer, identification, staging, and treatment. 92(1):105*
• Indwelling urinary catheters, management recommendations. 92(1):127*
• Nephrotic syndrome in adults, diagnosis and management. 92(2):209*
• Prostate cancer, update on recognition and management. 92(1):67*
• Testicular cancer, screening and education, role of primary care physician. 92(1):93*

VACCINATION: See Immunization

VASCULAR DISEASES: See Cardiovascular diseases

VIRAL DISEASES
• Hepatitis B and C, chronic, current drug treatment. 92(4):75*
• Hepatitis, preexposure and postexposure prophylaxis. 92(4):43*
• Hepatitis, tests for serologic diagnosis. 92(4):55*
• Human immunodeficiency virus infection in athletes, risks in sports setting, guidelines for sports physicians. 92(7):73*
• Poliovirus, possible causes and current treatment of postpolio syndrome. 92(1):249*
• Rabies, potential in animal bites, management steps. 92(1):140

VITAMINS
• Hypervitaminosis A. 92(6):199
